Dear Stuart

What a night!!! We are just about getting over those manual thrusts and Jenny's lips have now lost their Mick Jagger appearance from the C.P.R.

Seriously now we would all like to thank you for giving up your time to show us the way. Some of us had never done a course like this before and were a little nervous.

After the initial butterflies, we all had a thoroughly enjoyable evening and learnt something of great value.

You made it easier for us with your easy going attitude and gave us confidence and rid us of our fears by saying "*you can't make a deadperson any deader by trying to help*". Common sense really but until some one in the know tells you that it is rather scary.

We all look forward to seeing you again for the Health & Safety course in April if you can put-up with us all once again.

Till next time

Rose

Rose, Jen, Liz, Sandra, Jane, Pat & Liz.

PS. We will make sure all dogs have performed well before you arrive next time.
