Celox Haemostatic Granules

Celox 15g CODE: RE9080401	PACK: Each	PRICE: £15.00
Celox 35g CODE: RE9080400	PACK: Each	PRICE: £20.00

MAIN FEATURES

CELOX was originally developed to save lives on the battlefield but has valuable application in industry as well as for first response.

First Aiders and First Responders never know what they'll be up against next. Car crashes, injuries from falls, construction mishaps, cuts from machinery, fires and disputes that end badly.

MAJOR BENEFITS

CELOX's new technology is proven to clot blood in just 30 seconds. It clots blood containing anticoagulants in the same 30 seconds. The new CELOX, comes in 15g and 35g packs. It is packed in robust, lightweight and pocket sized pouches with easy tear access.

There is no need to carefully measure or cautiously apply the CELOX. The entire contents can be poured into a wound and pressure applied. It's an emergency product that you can depend on to help control abnormal bleeding.
